# The Small POS That Always Comes Up Big.

Clover Mini runs on cloud-based software so you can access your business information wherever you are—from a computer, tablet or mobile phone. And, as you grow, you can do even more with business management apps from the growing App Market.

## Designed with your customers in mind.

Clover Mini lets you get to work—right out of the box.

- Accept more types of payments, from magnetic-strip and EMV® chip cards to contactless, without additional equipment or complicated software
- Help protect your customers, business and reputation from fraud with built-in Clover Security
- Set up a mobile loyalty and rewards program with Clover Customer Engagement
- Get deeper understanding about your business with Clover Insights

## Additional benefits

- Simple setup lets you start accepting payments immediately
- Continue to accept payments even when your Internet is down
- Clover features more than 150 apps available on the Clover App Market, making it far superior to its square-shaped competitors

**If you're ready for your business to go big, grab a Clover Mini.**
